

DHR Health PGY1 Pharmacy Residency Program

dhrhealth.com

ABOUT THE PROGRAM

Number of Positions: 4

DHR Health offers a 52-week Post Graduate Year 1 (PGY1) pharmacy residency program designed to expose residents to a comprehensive clinical environment in which they will develop knowledge and skills in direct patient care in both ambulatory and acute care settings. Residents will complete required learning experiences to build a strong knowledge base and have the opportunity to select elective learning experiences in different fields of interest. The purpose of the program is to build on the Doctor of Pharmacy (Pharm.D) education and contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions. Graduating residents would be eligible for board certification, postgraduate year two (PGY2) pharmacy residency training, and placement in advanced clinical pharmacy roles.

The program is designed to develop the following competencies:

- Patient Care
- Practice Advancement
- Leadership
- Teaching and Education
